

SCHOOL OF COMMUNITY RESOURCES AND DEVELOPMENT
AGENCY INTERNSHIP SUPERVISOR CORE COMPETENCY WORKSHEET

The School of Community Resources and Development thanks you for your willingness to help our students in their professional development.

From the time the student declared a major in our School, we stress the progressive development of core competencies, which the faculty believe are common to all types of agencies associated with our majors. Core competencies are developed through course content (knowledge), and the knowledge applied (skill or ability) through course projects/assignments, as well as through their required Career Field Exploration experiences, which they must complete before they are eligible for a Senior Internship.

To help the student understand how their internship experience with your agency will aid in his/her professional development we are asking that you complete the Core Competency Worksheet provided to you by the student. This form is submitted to the School as part of the required paperwork packet that must be completed before the student is eligible to enroll in the Senior Internship course.

There are 11 identified Core Competency Groups, and within each group, identified Experience Items. It is not expected that all students will be exposed to each of the Core Competency Groups or Experience Items, as this is dependent on the type of agency, as well as the student's internship position and responsibilities. However, it is felt that there should be a variety of areas with which the student will gain some type of experience level (knowledge, skill, ability). A requirement of a Senior Internship experience is that it is similar to the responsibilities of a professional entry-level position.

For each of the Core Competency Group Experience Items, we are asking that you indicate one of the following levels of experience.

- a. No exposure
- b. Knowledge developed through discussion or observation.
- c. Skill developed through the student's exposure within his/her responsibilities.
- d. Ability developed through the student's direct responsibility within the Experience Item.

If you have any questions regarding this form please do not hesitate to contact Manny Padia at Manuel.Padia@asu.edu or at 602-496-1049

Thank you.

AGENCY INTERNSHIP SUPERVISOR CORE COMPETENCY WORKSHEET
